PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Ge' Pendant Light by Kartell

Ferruccio took inspiration from the old Venetian chandeliers to design the Gè pendant light. A 37cm diameter lampshade, made entirely from poly-carbonate and available in numerous colour options. Kartell separates the Ge suspension in two categories, one with transparent and soft colours. The other is solid black or white with gold details or a chrome version.

You can hang your Ge pendant above a dining table, in the kitchen area or the bedroom. You can adjust the height of the pendant from 45 to 230cm. A Ge pendant although impressive and vibrant on its own, can be combine with other Ge lights of other colours and you can create your very own colourful cluster. The prismatic effect, from the poly-carbonate shade creates hundreds of beautiful reflections.

This suspension falls under Kartell's sustainability category as part of Kartell Loves the Planet. It is made of polycarbonate 2.0 from transparent or mass-dyed renewable raw material.

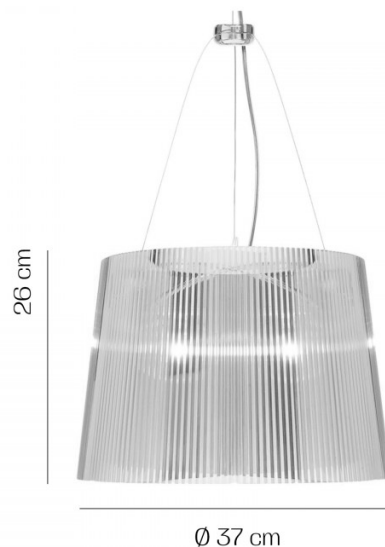

PRODUCT SPECIFICATION

Light Source: 1 x 12W E27 Globo LED (included)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø 37cm diffuser
26cm diffuser height
45-230 cm cord length
