PRODUCT DESCRIPTION

Designer: Verner Panton

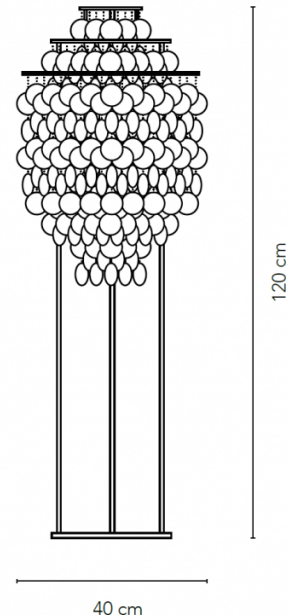

Fun-1STM Floor Lamp by Verpan

The Fun-1STM floor lamp is a stunning light with natural mother of pearl shells that are held to the highest quality standards on a 3-ring metal frame. The discs are mounted to the chrome or brass frame with small stainless steel rings. The floor lamp was originally designed in 1964, being a true representation of the psychedelic aesthetic of the period. The lamp is textural and make a beautiful sound when touched.

The Fun-1STM floor light emits a soft, warm glow that is diffused through the bottom which fades as it reaches the top of the lamp. Ideal as a prominent and inspiring part of your interior design, this floor light will work in many spaces but will particularly thrive in lounge areas. Match with other lights from the [Verpan Fun collection](#) to make a real impact.
