PRODUCT DESCRIPTION

Designer: Verner Panton

Verpan VP Globe Brass Pendant light

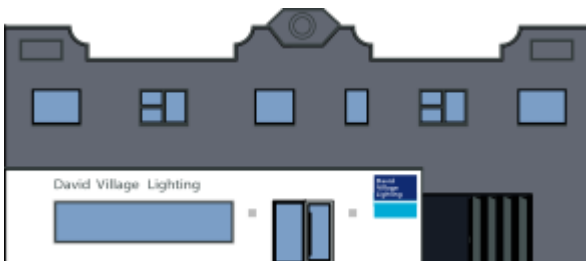

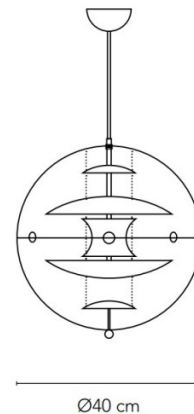

The Verpan VP Globe Brass Pendant light was designed by Verner Panton as part of the iconic VP Globe collection. Panton stated that 'different executions of the design allows for different expressions' and the brass version uses a metallic brass finish to add a touch of luxury to the classic design.

The VP Globe Brass Pendant light features a decorative mood setting light output that casts an ambient soft light into the surroundings. This futuristic sculptural design adds a statement to any space, whether it be in a dining room, bathroom or hallway, this iconic pendant light is just as elegant switched off as it is switched on.
