PRODUCT DESCRIPTION

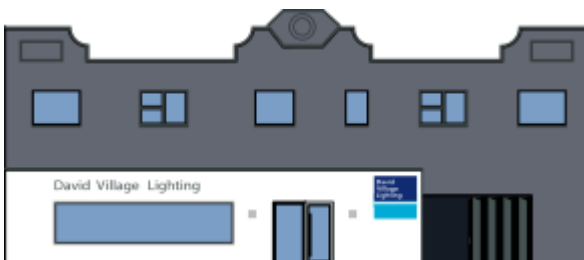

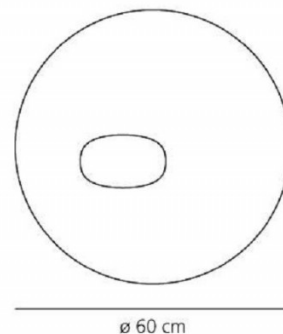

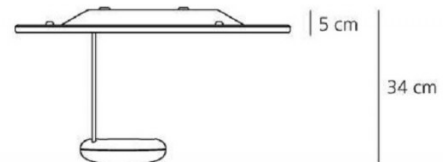

Designer: Ross Lovegrove

Artemide Droplet Mini LED Wall / Ceiling Light

The mini version of the Droplet light, the Droplet mini can be installed both as a ceiling light or a wall light. A design by Ross Lovegrove for Artemide, as reflected by the clearly organic form of the light. Droplet is a moment frozen in time, a liquid aluminium surface disturbed by a steel 'pebble', and catches the moment when ripples start travelling across the liquid surface. A stunning and eye catching piece for both your home and professional environment.
