PRODUCT DESCRIPTION

Designer: Bridgewell Consulting

Fabbian Diamond Pendant

The Fabbian Diamond Pendant is an elegant and timeless design by Bridgewell Consulting, who drew inspiration from water - specifically the ocean and the patterns it creates on the beach sands. The spherical diffuser is made from hand-ground crystal glass and is available in two sizes. Both variations feature the unique textured glass detailing, immediately catching your eye when turned off and when turned on resulting in a beautiful speckled play of light that is cast across your wall.

A romantic lighting solution for residential and commercial interiors, the Diamond Pendant is a beautiful addition to living spaces, bedrooms kitchens and entryways. It is also a popular lighting solution for larger environments such as hair salons, above shop counters and in hotels.
