PRODUCT DESCRIPTION

Designer: Bridgewell Consulting

Fabbian Diamond Wall Light

An elegant and romantic design by Bridgewell Consulting, the Fabbian Diamond Wall Light draws inspiration from the movement of water and the patterns created in the sand by the sea. Crafted from hand-ground crystal glass with chrome metal detailing and a canete-organza shade, Diamond adds a sophisticated touch to a multitude of interiors. Its designers aimed to create a lighting solution that had its own story to tell.

The Fabbian Diamond Wall Light produces a decorative but functional illumination, projected upwards and downwards through the shade to create a beautiful wash of light against your wall. This graceful lighting solution is an excellent addition to hallways, entryways, kitchens dining spaces and even bedrooms. With the ability to dim the light source, you can easily personalise the ambience created by the Fabbian Diamond Wall Light.
