PRODUCT DESCRIPTION

Designer: Marc Sadler

Fabbian Beluga Triple Ceiling / Wall Light

Designed by Marc Sadler, the Fabbian Beluga Triple Ceiling/Wall Light is an extension of the Single and Double versions. An adaptation that is perfect for larger spaces. This lighting solution is crafted from polished chromium-plated metal, with three spherical diffusers that are made from either crystal glass or steel and are adjustable for a directional illumination.

The Fabbian Beluga Triple is available in crystal, white steel, blue, copper, green, red and yellow. It is a perfect way to illuminate your hallway, kitchen, workspace and entryway, as well as more spacious commercial interiors such as over reception desks or counters and in hotels, cafes and restaurants.

Please note, the images show the light fitting with a PAR-20 GU10 lamp but this light source has now been replaced with a PAR-16 GU10 lamp which is slightly narrower and therefore leaves a slight gap between the lamp and the rim of the light fitting. Lamp not included

PRODUCT SPECIFICATION

Light Source: 3 x Max 50W PAR-16 GU10 LED (excluded)
