PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Bit Wall Light by Foscarini

The Bit wall light was designed by Ferruccio Laviani in 1993 and is still a modern and contemporary fixture perfect for many settings. The Bit wall lamp comes in 5 different variations and shapes with a variety of colours to choose from. Each one is unique and the shapes are like graphic pieces of art creating a bold and captivating look when put on the wall.

You can use each wall light individually or you can put together to create a mosaic type display on the wall. The different options make it wonderful for many spaces, big or small and will add a touch of colour to any room. The wall lamp provides a diffused and reflected light perfect for lining the walls to create an inviting atmosphere in a decorative way.
