This floor lamp, designed by Adrien Gardere, has an adaptable shade with can be adapted in three positions and you can completely turn the shade upside down. The Melampo is thus a lamp that can be used different depending on the task at hand. The lamp emits either a diffused or indirect up light.

The lamp is available in two sizes, the Melampo and the larger Melampo Mega. There are two colour options available, in a grey structure and diffuser or a bronze structure with a neutral diffuser. Explore the [Melampo lights](#), which also include a wall light and table lamp.
