PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

Luceplan Costanza Wall Light

The Luceplan Costanza Wall Light is a great example of classic design. This light consists of an interchangeable shade that emits a warm light, connected to an aluminium base attached to the wall. The shade is available in ten vibrant colours, so there truly is something for everyone.

The Costanza also hosts an integrated dimmer in the form of a rod, easily accessible underneath the shade, that grants you with four different lighting levels - this enables you to adjust the intensity of light according to your own needs. This lamp is perfect for next to your bed as a reading light, attached to the wall next to your desk as a soft working light or even in your living area for an atmospheric mood light.

Also available as a [telescopic version](#), with an adjustable stem and a wide range of colours
