PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

Luceplan Lady Costanza Floor Lamp

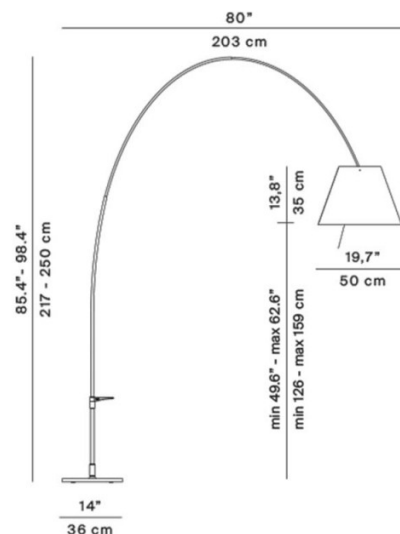

The Luceplan Lady Costanza Floor Lamp is an evolution of the [Costanza collection](#), designed by Paolo Rizzatto it boasts an elegant design and fits in to a vast range of modern interiors. Rizzatto has blended a perfect mix of the classic Costanza Suspension Lamp shade from the year 1986 and a modern day arc lamp.

The key selling features of the Lady Costanza Floor Lamp is its vast flexibility, functionality and lightweight frame, these features distinguish this floor lamp from others in the market. The floor lamp offers a telescopic stem, allowing you to adjust the height to suit your spaces needs, and 360° rotation, making it possible to rotate on the base, allowing perfect positioning. The stable base means you can place the stylish arc lamp directly above your sofa or workspace, resulting in a soft and warm light, perfect for reading or working without the harsh glare of a direct task light.

This lamp is available either with a touch dimmer or an integrated on/off switch located under the shade.
