PRODUCT DESCRIPTION

Designer: Luciano Belistrini & Paola Longhi

Trama Wall/Ceiling Light by Luceplan

The Wall/Ceiling version of Trama is available in two different variants, depending on the dimensions of the diffuser. It boasts an elegant and simple design and is made from high quality materials, a screen printed polycarbonate convex diffuser and an aluminium structure. The quality of the materials composing the diffuser ensures a strong light distribution, the silk screening enhances the quality of light that is dispersed. This avoids the harshness and false shadows created by direct light beams.

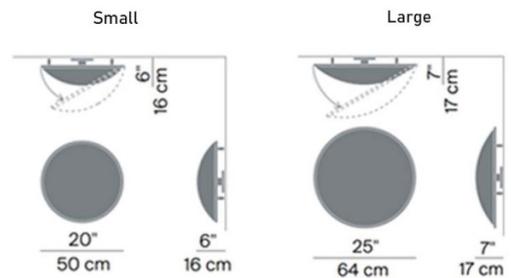

The Trama lights are almost weightless, meaning they can be used on plasterboard and fake ceilings. The cap is made of polycarbonate, which makes it very light compared to glass alternatives, which are heavy and extremely fragile.

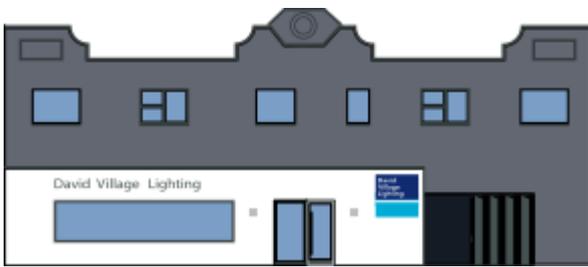

The Trama Wall/Ceiling light diffuser cover can be easily removed via a hinge, this allows both easy opening to replace bulbs and complete detachment of the diffuser cap for cleaning and other maintenance.

PRODUCT SPECIFICATION

- Light** **Small:** 3 x LED E27 or Max 42W E27 (excluded)
- Source:** **Large:** 3 x LED E27 or Max 70W E27 (excluded)
- IP Code:** 20
- Dimming:** Dimmable using trailing edge dimming.
- Dimensions:** **Small:**
 Ø50cm
 Depth: 16cm
- Large:**
 Ø64cm
 Depth: 17cm
