PRODUCT DESCRIPTION

Designer: Miguel Milá

Sexta Suspension Light by Santa&Cole

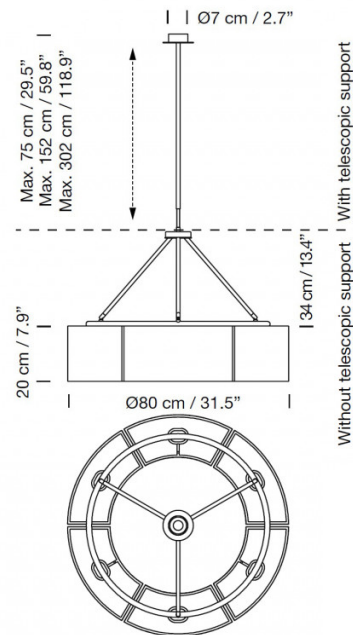

The Sexta suspension lights remind us something of the medieval cast iron lights, with multiple light sources. Miguel Mila delivers a large suspension light with double sided shades that create an evenly distributed ambience. The [Estadio lights](#) were actually the predecessor of the Sexta suspensions and will create a perfect balance in the room if combined in the same space.

Each double sided shade is subdivided into six sections of 60° and there are various support options to choose from. The suspension can be supplied without a telescopic tube (drop height is 34cm) or with a telescopic tube in a choice of 75, 152 or 302cm max height. This is the smallest version, a larger suspension, the [Sexta 12](#) is also available with 12 30° sections.

The lower discs are not supplied and are optional in the configuration of the lights. Please [contact us](#) for more information.

PRODUCT SPECIFICATION

- Light Source:** 6 x Max 12W E27 LED (included)
- IP Code:** 20
- Dimming:** Dimmable via mains phase dimming.
- Dimensions:** Ø80cm
Height: 20cm
