FOSCARINI

Foscarini Tress Wall Light

LA9240

PRODUCT DESCRIPTION

Designer: Marc Sadler

Tress Wall Light by Foscarini

Made from a new material which combines resin tape and fibreglass, Marc Sadler and Foscarini have collaborated to create the Tress wall light. The material is woven to produce a crossed pattern that looks unique and spontaneous, boasting wonderful craftsmanship and innovation. Available in 2 sizes, large or small, the wall light emits a downward and upward illumination as well as escaping through the geometric holes which makes it an effective and functional light.

Choose between 2 subtle finishes, either white or black and use to line the walls in many spaces such as corridors, lounges, reception rooms or bedrooms. The Tress wall lamp can be used in big and small interiors in both homes and professional settings, being a classic and timeless addition.
