Monster Armchair by Moooi

A quirky and unusual design, the Monster armchair is available with either a plain or embroidered back. Designed by one of Moooi's founders, Marcel Wanders, the armchair is made of synthetic leather and strong interior frame made of steel. The legs of the chair are bulky and uneven, making them to stand out. While you might think the Monster is scary, dare to sit onto its comfy and soft seat. The Monster is meant to represent the eternal battle that can be found inside all of us, bad and good in a constant match. The Collection also includes the [Monster Chair](#) which comes without arms.

Monster furniture is available in over 200 fabric options, other plain or diamond patten and with or without arms. For further information on the options available and pricing, please [contact us](#)
