PRODUCT DESCRIPTION

Designer: Joe Colombo

Oluce Fresnel 1148 Wall Light

Oluce Fresnel 1148 Wall Light was created by an Italian industrial designer, Joe Colombo. This palm-sized wall lamp has a diameter of 10cm and a depth of 12cm. The light source is protected with a fresnel glass lens, which is where the title for this light came from. Fresnel glass refracts the light outwards, dispersing the light evenly. Designed with an IP of 44, this wall light is created for both indoor and outdoor use. Fresnel 1148 wall light is one of those perfect designs which cannot be improved upon because of its timeless simplicity.

Oluce Fresnel 1148 Wall Light is also available in an LED version: [Oluce Fresnel 1148 LED Wall Light](#). Colombo thoughtfully designed these lights to work in both residential settings as well as commercial.
