PRODUCT DESCRIPTION

Designer: Barlas Baylar

Terzani Atlantis Chandelier

The Terzani Atlantis Chandelier was created by New York designer, Barlas Baylar and handcrafted by master Artisans in Italy. It is constructed from 4000 meters of nickel chain, available in either silver or gold, creating a mesmerising and organic effect in your space. Like water in the ocean, Atlantis' chains seem liquid-like, cascading over its gloss bands and flowing downwards before turning back into itself. This design is guaranteed to make a statement in both residential and commercial contemporary interiors.

Atlantis Chandelier is handmade and customisable upon request in two sizes of either a 50cm or 65cm diameter. This distinctive chandelier is best suited for larger interiors, including atriums, entrance halls, restaurants, hotels, and spas. Each chandelier has its own unique engraved serial number.
