PRODUCT DESCRIPTION

Designer: B. Baylar

Terzani Atlantis Chandelier

Terzani Atlantis Chandelier was created by New York designer, B. Baylar. Handcrafted by the Artisans, Atlantis Linear Suspension is constructed from 4000 meters of nickel chain, creating a mesmerizing and organic effect. Like water in the ocean, Atlantis' chains seem liquid-like, cascading over its glass bands and flowing downwards before turning back into itself.

Atlantis Chandelier is handmade and customisable upon request with a range of sizes and details. Each chandelier is unique with its own serial number. This unique light excels most in commercial establishments such as restaurants, hotels and spas. Each chandelier has a high-end finish to make it stand out and add a touch of elegance to any commercial interior.

Also available in champagne, black nickel, bronze and gold plated finishes.
