PRODUCT DESCRIPTION

Designer: B. Baylar

Terzani Atlantis Linear Suspension

The Atlantis Linear Suspension was designed by B. Baylar for Terzani. Handcrafted by the Artisans, Atlantis Linear Suspension is constructed from almost three miles of nickel chain, creating a mesmerizing and organic effect. Like water in the ocean, Atlantis' chains appear liquid, cascading over its gloss bands and falling towards the abyss before turning back into itself.

Terzani Atlantis Linear Suspension is handmade and customisable upon request with a range of sizes and details. Each piece is unique with its own serial number. This unique light excels most in commercial establishments such as restaurants, hotels and spas.

Also available in champagne, black nickel, bronze and gold plated finishes.
