PRODUCT DESCRIPTION

Designer: Barlas Baylar

Terzani Atlantis Linear Suspension

Designed by Barlas Baylar for Terzani and handcrafted in Italy, the Atlantis Linear Suspension is a dramatic but organic installation. Resembling the movement of flowing water and crafted from 4000 meters of nickel chain, this luminaire is available in two sizes and two finish options allowing it to adapt to a multitude of contemporary interiors.

The Atlantis Linear Suspension stands out no matter where it is displayed and is a great addition to dining spaces, restaurants, bars, reception areas and spas. The light source is diffused through the metal shade to generate a functional but inviting illumination. Each suspension is engraved with a unique serial number and grants an elegant and modern aesthetic.
