PRODUCT DESCRIPTION

Designer: Barlas Baylar

Terzani Atlantis Wall Light

The Terzani Atlantis Wall Light was created by New York designer, Barlas Baylar with the aim of replicating an organic form that resembles flowing water, spilling over the sides and falling downwards. The structure of the Atlantis Wall Light is formed from a stainless steel frame and different-sized nickel chains to create a natural aesthetic.

Available in two sizes, this silhouette is a beautiful way to illuminate corridors in hotels and residential properties as well as dining rooms, kitchens, restaurants and spas. No matter where Atlantis is displayed it is sure to catch the eye and form an eye-catching installation.

The Terzani Atlantis Wall Light is also available in champagne, black nickel, bronze and gold plated finishes. Please [contact us](#) for more information and pricing.
