PRODUCT DESCRIPTION

Designer: Bruno Rainaldi

Terzani Magdalena Suspension

The Terzani Magdalena is a spherical pendant light crafted from metal that utilises the method of laser cutting to create a unique pattern on the shade. These laser-cut, horizontal spaces allow for the light source to be emitted evenly across the room, whilst also creating alluring patterns of light and shadow. Designed by Bruno Rainaldi, the Magdalena Suspension can adapt to almost any modern interior and is a unique design.

Terzani Magdalena is available in three different colours; white, nickel or gold. The white or nickel Magdalena Suspension is delivered with a red textile cable, which provides a fresh, coloured accent contrasting with the light body. In contrast, the gold suspension is supplied with a black cable.

The Terzani Magdalena is also available in a larger size, or with a dome shade. Please [contact us](#) for more information and pricing.
